

Extra Back to School Deals on Unlocked Phones from Cellhut

One of the internet's leading sellers of unlocked phones is having a back to school sale on many great products.

New York, NY, August 26, 2008 --(PR.com)-- Sharpen those pencils and get ready to start the school year in high-gear with the help of these great unlocked cell phones. Cellhut is proud to be featuring an extra set of savings for those who haven't yet taken advantage of the great deals found on the website. All of the phones included have great features and are very easy to use.

Cellhut has been selling unlocked cell phones and accessories since 1996. The company is known for their dedication to providing customers with the latest and best performing phones on the market. In addition to being one of the most trusted e-commerce websites, Cellhut also holds the best deals and savings available anywhere.

There are six deals featured in the flyer and each of them is an invaluable addition to Cellhut's collection of the best savings found on the internet.

The Sony Ericsson W300i is available for \$94.97 with the coupon code and is one of the easiest phones on the market to use. Simplicity is really a learned art, and it can take a manufacturer many models before they nail the combination of features and design down perfectly. The W300 is an exceptional example of who close Sony has come to providing an easy to use phone for the masses. The clamshell design houses a Memory Stick Micro slot, a VGA camera, Bluetooth, and USB connectivity.

The Motorola U6 Pebl for \$79.99 can be had with the correct coupon and is truly the best mobile solution for people on the go. No other phone comes close to the elegance that the Pebl exhudes. At 110 grams and sporting a great VGA camera this is fantastic phone to take with you everywhere. The keypad is easy to use and all the buttons are clearly laid out and will have you calling and texting within minutes.

These deals are only available for a limited time and can be seen [on this flyer](#). So order today and enter the world of wireless freedom.
