

Cellhut Introduces a Fall Season Sale on Unlocked Cell Phones

One of the internet's leading sellers of unlocked phones is having a back to school sale on some very great phones.

New York, NY, August 28, 2008 --(PR.com)-- With cold weather fast approaching and the time to spend hours in the classroom begins, there is no better place to purchase a new cell phone than at Cellhut where the best-performing phones can be had at a great price. In celebration of the new semester, Cellhut is featuring their most popular phones for a discount. This special event will only be held for a limited time, and once the stock runs out there will be no more opportunities to purchase the phones.

Cellhut has been selling unlocked cell phones since 1996, and is one of the most trusted e-commerce companies on the internet. Their dedication to providing customers with the latest phones at great prices has earned them a place among the highest-selling websites. The customer service department is also worth a mention because customer calls are dealt with quickly and efficiently.

All of the phones featured in the sale are the top in their class and perform to even the highest expectations. Their design is superb and the features included with the phones are great for productivity.

The Motorola U6 PEBL is available for \$79.99 and is a great compact cell phone for anyone who wants to easily make calls. Quad-Band connectivity and great features give this phone an edge over other clamshell phones and with its VGA camera complete with digital zoom, there is a lot to get excited about with this phone. Its rounded exterior and attractive finish make it stand out in a crowd and with the Bluetooth connection this feature-packed phone is a great all-in-one solution.

The LG KU380 is on sale for \$110.99 and is a slider phone for every occasion. This phone's Tri-Band connectivity and 3G data gives it a lead over other phones in the market that might lack that beneficial connection. Other great features included with phone are a MicroSD slot, Bluetooth connection, USB 2.0, and a great 1.3 Megapixel Camera which takes pictures in high quality.
