

BusinessSuites Expands Its Footprint in Virginia

New executive suite location in Stafford County aims to reduce commute times for local professionals and entrepreneurs.

Austin, TX, September 03, 2008 --(PR.com)-- BusinessSuites, the nationwide operator of [executive office suites](#), announced its plans for a September 2008 opening of a new location in Stafford County, Virginia, one of Forbes Magazine's "Best Places to Get Ahead" in 2008. BusinessSuites was attracted to the Fredericksburg area by Stafford County's efforts to become an employment center by leveraging its well-educated workforce to bring more professional jobs to the area.

BusinessSuites Riverside will be located in the Riverside Business Park at I-95 and Warrenton Road and is the third Virginia location for the company. With 55 offices and two conference rooms, the center will provide furnished [Fredericksburg VA office space](#), complete with telephone, internet, telephone answering, plus access to conference rooms and a café. [Fredericksburg VA executive suites](#) will be available with flexible terms allowing short-term and small space users an economic alternative to the long-term financial commitment of conventional office space.

"Currently, almost 40% of Stafford County residents spend an hour and a half or more in their cars each day commuting to and from work. By bringing professional, turnkey office space to the Fredericksburg area, we believe BusinessSuites offers an alternative to costly, time consuming commutes," said John Jordan, president of BusinessSuites. "At BusinessSuites Riverside, local entrepreneurs will be able to set up shop closer to home and individuals who work for large companies can easily establish satellite offices in Stafford County. We believe the space will be ideal for government contractors, entrepreneurs, attorneys, and other professionals."

"I am very pleased that Stafford's continued efforts to attract businesses and good paying jobs to our community are working," said Deputy County Administrator and Economic Development Director Tim Baroody. "Our goal is to make Stafford an employment center so that our residents do not have to commute out of the county to earn higher salaries. As more companies that provide professional business services open offices in Stafford, more job opportunities are created for our citizens closer to home, improving our collective quality of life."
