

Cellhut Has Great Fall Season Specials on Unlocked Cell Phones

One of the internet's leading sellers of unlocked phones and accessories is having a Fall Season Sale.

New York, NY, September 11, 2008 --(PR.com)-- The new school year brings in new phone models from the most well known manufacturers including HTC, Samsung, LG, Song, and Nokia. This influx of so many phones can be quite confusing, thankfully Cellhut is here to sort out the best from the rest.

Cellhut is one of the most reliable e-commerce websites in existence. Since 1996 the company has been known for their phenomenal selection of unlocked phones and accessories. The company stocks only the best-performing models while avoiding the phones that wouldn't do anyone any good to use. In addition to the large stock, Cellhut also strives to keep the prices as low as possible.

Here are two great deals featured in the deal:

The Nokia N72 is available for \$209.98 and really sets the standard for candybar phones. Incorporating a unique sense of style and function that will catch the attention of everyone who sees the phone. Nokia has really pulled out all the stops in the design of this phone and elevates the mid-price candybar phone to a new level. The 2 Megapixel Camera on this phone is perfect for taking pictures in high resolutions. Productivity on this phone is very possible because the Symbian OS is a breeze to use and very intuitive.

The Motorola SLVR L7 available for \$109.45 is a sleeker alternative to the N72, and still offers the great ease of the use and technology. The keypad is a brushed silver color that is segmented where the keys separate from each other. The OS is very simple to use and right from the get go, you'll be texting and calling other people. Of course all the standard features are there including an Mp3 player, Bluetooth, and picture messaging.

The flyer advertising these deals can [be found here](#). Visit www.cellhut.com for even more great savings on unlocked cell phones.
