

Renasis Releases Outdoor SAP36g High Powered Access Point

The Outdoor SAP36g provides robust all-weather performance from its powerful SAP36g radio.

Provo, UT, September 17, 2008 --(PR.com)-- Renasis, LLC, a leading technology innovator specializing in the design, development and manufacture of wireless communications products, now offers the Outdoor SAP36g, the rugged all-weather version of its popular and powerful indoor 820 mW radio.

“The Outdoor SAP36g gives the same outstanding performance as the indoor unit,” said Ki Chun, president of Renasis. “And coupled with our ODU-08 outdoor enclosure, it offers more strength and durability than any other outdoor unit out there. Plus it's easy on the eyes!”

The Outdoor SAP36g features a true 820 mW radio with outstanding speed, penetration, and reliability, coupled with a light weight, durable die cast aluminum, IP69 rated housing for rigidity and longevity. This outdoor unit features UV/weatherproof paint, a waterproof hermetic seal with EPDM rubberized gasket, built-in heat sink for heat transfer, a NEMA 6 rating, and material compatibility for corrosion resistance. Flexible mounting options, including wall mount or incrementally adjustable pole mount, are available. Optional hinges maintain weatherproof integrity.

The Outdoor SAP36g is available for purchase now. Volume discounts are available. For more information, call 801-407-1300 or visit Renasis at www.renasis.com.

About Renasis

Renasis, LLC, specializes in the design, development and manufacture of wireless communications products, services and system solutions.
