

## **Emerald Software Announces Outreach Program: HR Technology Gift-in-Kind for Children's Healthcare**

*Emerald Software Group of Alpharetta, Georgia announces today its Emerald Outreach program, offering gift-in-kind donations of its workforce management technology to nonprofit organizations in children's healthcare and wellness.*

Atlanta, GA, September 30, 2008 --(PR.com)-- Emerald Software Group, a leading supplier of business process driven workforce management solutions, announces today that it is offering its workforce management technology free of charge to qualifying nonprofit organizations with missions in children's healthcare and wellness. The company's technologies are used to automate new employee hiring (also known as onboarding), employee materials requisitioning, and personnel actions.

"Our outreach program grew out of a management team discussion regarding what kind of company we are," said company President, Chuck Ros. "It was unanimous that we wanted to do something to give back to our community, and it was unanimous that we wanted to do something in children's healthcare. We may be a small company, but we can have big impact by helping these organizations save--in some cases--millions of dollars a year."

Emerald Software Group invites organizations involved in children's healthcare and wellness to visit their website to learn about the outreach program at [www.EmeraldSoftwareGroup.com/Outreach](http://www.EmeraldSoftwareGroup.com/Outreach); interested organizations may submit the web form or call the company at (770) 569-5122.

Emerald Software, based in Alpharetta, Georgia, is a pioneer in applying true business process management technology to real business challenges, particularly those in workforce management. The company's AllegroHR Suite includes functions for paperless new employee onboarding, the industry's only employee lifecycle based materials requisitioning, personnel action notices, and a full suite of employment verification services. The company's website is <http://www.emeraldsoftwaregroup.com>
