

California Based Timeaus Inc. – Innovator in Communication and Collaboration Software -- Secures Distribution Agreement with Tokyo, Japan Based Corporation Syslabo

Agreement Announces Launch of YourWorldOffice.com in Japan.

San Francisco, CA, October 03, 2008 --(PR.com)-- Timeaus Inc., software innovators recently entered into a sole distribution agreement for its flagship product YourWorldOffice.com in Japan with Syslabo Co Ltd., twenty year veterans of software development of business solutions.

Syslabo is based in Toshima-ku, Tokyo, principled by CEO Mr.Kiochi Sato. Customers include many Fortune 1000 companies such as Fujitsu, NTT and Toshiba. Syslabo will begin a rollout of YourWorldOffice.com secure communication and collaboration business software developed by Timeaus in October 2008.

“We feel very privileged that Syslabo has chosen YourWorldOffice to compliment their impressive suite of business solutions in Japan,” said Michael Flatley CEO of Timeaus Inc. “All indications show that Japan is now ready to engage in the growing business trend of innovation through collaboration. We look forward to YourWorldOffice.com's participation with this trend and the assistance of Japanese market innovators Syslabo,” added Flatley.

YourWorldOffice.com is a 21st century software solution based on a SaaS business model that solves a number of important communication, collaboration and security issues for businesses of any size. The software enjoys worldwide patent pending status. YourWorldOffice.com has created a deceptively easy to use interface which can be learned very quickly. As such, this interface allows for a smooth and intuitive access to a very complex product, eliminating the technical demands of learning how to access and use Intranets or VPN's.

YourWorldOffice.com automatically allows users seamless secure spam-free communication and collaboration in a private network environment via user name and password from any corporate website. YourWorldOffice.com allows for separate access or domains for clients and vendors as well as driving employees and customers to a corporate website or private user interface.

YourWorldOffice.com eliminates the need to travel with pre-configured laptops or portable devices to access sensitive and internal communications and documents. YourWorldOffice.com allows for users to be able to communicate and collaborate privately from any Internet linked computer anywhere in the world.

“YourWorldOffice” offers us a remarkable improvement for our company-wide communication and collaboration due to its customizable easy to use interface,” said Michael John, Head of IT at MUK Logistik GmbH and Transthermos GmbH., based in Munich, Germany. “The software allows us much faster access on documents throughout our organization saving us time and money,” said John.

Timeaus, Inc. is a U.S. corporation and the developers of YourWorldOffice.com. With offices located in California, Galway Ireland and Munich Germany, Timeaus is on the forefront of research and development of new products and is continually investigating trends in the market place, researching new technologies providing the simplest means to undertake complex projects in a useful, meaningful and productive manner.
