

## **Webplus Shop Announces \$1.00 Ecommerce Web Hosting Promotion**

Aberdeen, SD, October 07, 2008 --(PR.com)-- Webplus, Inc. ([www.WebplusShop.com](http://www.WebplusShop.com)), the leader in affordable ecommerce web hosting, announced today the launch of its \$1.00 ecommerce web hosting promotion. Through this promotion, businesses will receive their first month of ecommerce website hosting for just \$1.00 when setting up a new website with Webplus Shop. Package includes support for up to 150 products and product support with a cancel-anytime guarantee. Enter promo code: SELLOKLINE at checkout to receive this promotion.

Webplus Shop is easy, affordable ecommerce web hosting. With Webplus Shop, individuals and businesses can build an online store fast and sell or showcase almost anything worldwide in their very own online store website. Ecommerce hosting packages start at just \$14.95 per month with no “percent of sale” fees like many online auction sites. All ecommerce web hosting packages are ad-free and come with a domain name so people can find the store fast. Video tutorials make learning how to use the online store very easy and no programming knowledge is required. Webplus Shop support staff is just a phone call away if there is ever an issue. Need to start selling online fast? Webplus Shop staff can set up your ecommerce website and have it online and selling in just few hours.

For more information on Webplus Shop, please visit [www.WebplusShop.com](http://www.WebplusShop.com) or email [sales@webplusshop.com](mailto:sales@webplusshop.com). Promo may be redeemed online or by calling 1-866-338-8883.

### **About Webplus Shop**

Webplus Shop is the easy way for small businesses and individuals to open an online store and to sell almost anything online 24x7. Webplus Shop displays your products, processes orders and keeps track of inventory on the back end and may be added to an existing website or may act as a stand-alone business website. The Webplus Shop shopping cart software has been in continuous development by Webplus, Inc. since 1996 with a focus on ease of use and affordability. No programming knowledge is required to set up an online store or to make routine changes; we realize that most small businesses don't have a computer programmer on staff and your time is better spent running your business than figuring out software. Webplus Shop is also very affordable with packages starting under \$15 per month including the software, secure, US-based hosting with 99.9% uptime and your very own domain name. Webplus doesn't take any percent of your sales to cut into the bottom line of your online business. Webplus also does not outsource any portion of our services and our customer support is unbeatable. Yes, you can actually call and speak with a human when there is an issue. Call today or visit [www.WebplusShop.com](http://www.WebplusShop.com) to get started. You can't afford not to sell online.
