

## **Primary Tradelines a Solution to Our Credit and Economic Crisis. Primary Credit Lines to Build Better Payment History.**

*There is finally a way to get real Primary Tradelines legally. Raising your personal credit score has never been so easy. The fastest way to prime credit without credit repair.*

Largo, FL, October 29, 2008 --([PR.com](http://PR.com))-- There is a financial and credit crisis happening right now in America. There needs to be more companies that offer a solution to the American people.

"With all the hype about credit and the fall of authorized user accounts we have developed a sure system to get America back on the right track to financial freedom with Primary Credit Lines." Says Johnathan Donahue Founder New Millennium International, LLC and [www.mycreditheadquarters.com](http://www.mycreditheadquarters.com)

"The fact is that 95% of the companies that are online offering Primary Credit Lines cannot produce the results that are claimed. "There are only a few companies out there that have the ability to produce real results utilizing the primary trade lines solution, and we happen to be one of them." Says Johnathan Donahue of [www.mycreditheadquarters.com](http://www.mycreditheadquarters.com).

"With the credit crunch and the obvious crisis that our economy is facing right now we need to step up and help our fellow Americans get their personal finances back in order by creating a full financial plan for the middle and lower class citizens and restructure their credit to create a even flow of financial stability."

"The fact remains clear that every American is left to learn how to manage finances and credit on their own which should rightfully be a mandatory subject taught in every School system across the nation. This would eliminate 90% of the worlds money crisis and economical issues that we are having in the world today. We have miss managed the US Dollar from the highest level of government down to the average working class American. It is time for change." Said Donahue.

People need a second chance to gain control of their life and [www.mycreditheadquarters.com](http://www.mycreditheadquarters.com) is offering a system that will allow a fresh start and financial guidance which will provide the tools necessary for proper financial development.

Primary Credit Lines also known as Primary Trade Lines, along with a financial plan is the second chance to help gain a fresh start in today's economy.

"Our system is quite simple, we offer a solution to help people add primary trade line accounts to create positive payment history on their current credit score/report. All credit accounts that are restructured are very low in balance and report monthly. This is a win/win for everyone." Says Donahue.
