

Scentcrafters.com Introduces Sister Company Scentmatchers.com.

Cadillac, MI, November 23, 2008 --(PR.com)-- Scentcrafters.com is proud to introduce its new sister company, Scentmatchers.com. Scentmatchers.com specializes in reproducing discontinued perfume and cologne. This allows customers that can no longer purchase their favorite fragrance to have it recreated instead. The Scentmatchers staff has years of experience along with the expertise and technology to recreate a fragrance.

A small sampling of the fragrances they've recently matched includes: Ultima II Sheer Scent, Le Feu Issey Miyake, Uninhibited by Cher, Abercrombie & Fitch Woods, Helmut Lang Cuiron, and Gio by Armani. Scentmatchers is able to recreate virtually any discontinued perfume or cologne.

The icing on the cake is that customers are able to get their name/logo printed on their choice of Italian Glass bottles. This is an excellent way to contain, display, and dispense the custom fragrance.

Scentmatchers is also adept at duplicating and reproducing virtually any fragrance. Whether it is found in nature, or synthetic, Scentmatchers can reproduce it as a perfume or cologne.
