

Oxygen Detoxification Station Takes Detox Spas to a Whole New Level

The latest way to fully detoxify the body is now available at www.o2planet.com. Toxins in the air, water, and in our food can make the body system sluggish. Excess fat and cellulite can develop as a result of toxins that cannot be released. The Oxygen Detoxification Station produces gentle sweating with infrared and o₂/o₃ steam to pull the toxins out, leaving skin soft and moisturized. Clients rave about the benefits of this revolutionary spa capsule.

Las Vegas, NV, January 22, 2009 --(PR.com)-- Detoxing with the New Oxygen Detoxification Station from www.o2planet.com.

Looking for the next big trend in oxygen? It's the Ultimate Oxygen Detox Cabinet from <http://www.o2planet.com/>

From the moment the client lays down and relaxes in the Futuristic Spa Cabinet and settles in to soothing music they'll know this is a totally new experience.

Photon like bathes the client is a kaleidoscope of healing colors of red, blue, gold, and green stimulating body systems.

From above, the gentle infrared heat will envelops the client in a warm cocoon, while simultaneously penetrating the skin 3/4 centimeters and drawing out toxins. The infrared is a form of oxygen and speeds circulation and creates baby soft skin. Infrared also accelerates weight loss.

Next gentle steam infused with active oxygen (o₃) penetrates the already opened pores to attack virus, bacteria, and toxins and turning them into pure oxygen.

This complete oxygenation fully detoxes the skin (the third kidney).

After full detoxification, your session will be completed with a refreshing warm water jet massage that cleans the perspiration and toxins leaving you ready to go without need for a shower.

After the client steps out, the machine self cleans and disinfects with active oxygen.

Users are amazed and delighted with the results. They report feeling lighter with a refreshing lift that energizes and relaxes at the same time. Softer skin and immediate weight loss are also experienced (not in every case).

O2 Planet is the originator and creator of the Ultimate Oxygen Detox System. For more details on the complete system visit <http://www.o2planet.com/>
