

## **topseos.com Presents the July 2006 List of the Leading Search Engine Friendly Web Development Firms**

Plymouth, IN, July 05, 2006 --(PR.com)-- topseos.com is now ready its July 2006 list of the top Search Engine Friendly Web Development firms, consultants and services. In the past years, the website has turned into a consistent and dependable resource for assessing internet marketing vendors. Keeping consistent with the past, this list also makes the task of researching and selecting Search Engine Friendly Web Development firms effortless.

Since its beginnings topseos.com has aimed at becoming a single source of information for the search engine marketing industry and companies when researching internet marketing vendor. Established in 2002 by e-ventures, topseos.com has since then developed into a place for internet marketing and service providers to display their services.

With so much information, the net is becoming an increasingly crowded space. How does one break through this clutter? One very effective way is to utilize search engine friendly web development so that these major search engines are able to distinguish any given website. The key is to have the right SEO codes, which allow the website to communicate to its visitors successfully.

There are many elements that make up the development of a website. Aspects such as the internet connection of the site visitor, the colour coding and other such factors play a role in how a website is used. There are various layers that come into play when creating a website and the development stage is an integral layer. One should always keep in mind that convenience that the website provides to its viewers.

Here's the list of the top 5 Search Engine Friendly Web Development firms that have been selected for July 2006:

1. red : rain Solutions - India
2. 2advanced.com - California
3. Red Clay Interactive - Georgia
4. delphicsage.com - Philadelphia
5. avenuea-razorfish.com - Washington

The credibility of this research conducted by topseos.com can be gauged by how popular it is. A rigorous selection process is how the top 5 candidates are chosen. The selection of the candidates is based on the following criterions:

- Competitive advantage
- Superior services and pricing
- Functional design
- Customer and technical support
- Response to client problems

- Information architecture
- Innovations that set it apart from the competition
- Usability
- Reliability

Firms that specialize in Search Engine Friendly Web Development and wish to be considered for the topseos.com rankings can complete an application by registering as a service vendor and applying for rankings at:
