

topseos.com is Ready with the August 2006 List of the Leading Search Engine Friendly Web Development Firms

Plymouth, IN, August 01, 2006 --(PR.com)-- topseos.com has just finished compiling the August 2006 list of the top Search Engine Friendly Web Development firms, consultants and services. Since the website was launched, it has developed into a reliable and accurate resource for evaluating Internet marketing vendors. Keeping this tradition going, this list also makes researching and selecting Search Engine Friendly Web Development firms easy.

After it was started in 2002 by e-ventures, the objective of topseos.com has been to become the single portal that the search engine marketing industry and companies turn to when researching Internet marketing vendor. Always improving on this goal, topseos.com continually provides Internet marketing and service providers a place to display their services.

As the net becomes more and more popular, the amount of information available on it also increases, making it an extremely cluttered space. Websites have to constantly differentiate themselves to reach their audience and grab the attention of potential clients. That is where utilizing search engine friendly web development comes in. Search engine friendly web development allows major search engines to locate any given website. The trick is to have the right SEO codes, so that the website can communicate to its visitors successfully.

One needs to keep in mind the different elements that have to be brought together to develop a website. Even seemingly insignificant aspects such as the Internet connection of the site visitor, the colour coding and other such factors play an vital role in how a website is used. Likewise, the development stage is an extremely important step when creating a website. The convenience that a website provides its surfers should always be given utmost importance.

Here's the list of the top 5 Search Engine Friendly Web Development firms that have been selected for August 2006:

1. red : rain Solutions - India
2. 2advanced.com - California
3. delphicsage.com - Philadelphia
4. Red Clay Interactive - Georgia
5. avenuea-razorfish.com - Washington

When one looks at how popular this rating done by topseos.com is, the list's value becomes obvious. The top 5 candidates are arrived at after a rigorous selection process. The selection of the candidates is based on the following criterions:

- Competitive advantage
- Superior services and pricing
- Functional design

- Customer and technical support
- Response to client problems
- Information architecture
- Innovations that set it apart from the competition
- Usability
- Reliability

Firms that specialize in Search Engine Friendly Web Development and wish to be considered for the topseos.com rankings can complete an application by registering as a service vendor and applying for rankings at:
