

## **New Healing Modalities at San Francisco and Salt Lake City**

*Alternative Health Summit 2006 at San Mateo Marriott, August 24-25, 2006. Meet Susan Powter and others.*

San Francisco, CA, August 21, 2006 --(PR.com)-- Hyperbaric Oxygen Therapy, Neurofeedback, Chelation Therapy, Haelan Fermented Soy Beverage for Cancer Therapy, the Psychology of Winning as a Template for Choosing Holistic Therapies.

What do these topics have in common? They are all alternative therapies currently being integrated into traditional medical practices, and each is the subject of a lecture presented at the Alternative Health Summit in San Francisco on August 24-25, 2006.

This Summit and Conference will combine the best of alternative health therapies, showcasing clinical studies from Harvard Medical School and other top medical facilities. These two days of speakers, exhibits and entertainment will include fitness and diet guru Susan "Stop-the-Insanity!" Powter, whose presentation is entitled, "Eat, Breathe, Move and Think Your Way to Wellness."

The entertainment during Friday's reception, provided by the musician and spiritual seeker known as WAH! and her band, promises to create a seductive spirituality with a unique mix of pop, world music and reggae. Wah! has opened for Courtney Love (Hole), headlined at Lake Eden Arts Festival (LEAF), and appeared on VTV Vancouver Morning Television.

The goal of the Alternative Health Summit and Conference, created by the Alternative Medicine Referral Network is to advance the field of alternative healthcare and educate practitioners and the public on how alternative therapies are used in conjunction with traditional medicine. The conference will:

- . specifically examine the long-term health impacts, co-occurring issues, and responses related to alternative healthcare and complementary medicine;
- . describe the latest findings related to integrative medicine in an educational format, including Continuing Education Units for physicians and holistic healers;
- . assist practitioners in building community, offer a forum for speaking and education on body, mind and spirit healing;
- . emphasize prevention and intervention strategies for the general public and promote manufacturers of nutritional products and supplements.
