

TheChinaInventory.com, a Leading Retailer and Wholesaler of Men's Jewelry, Introduces New Collection of Tungsten Carbide and Ceramic Wedding Band Rings

Boston, MA, June 28, 2009 --([PR.com](#))-- [TheChinaInventory.com](#), a leading online retailer and wholesaler of men's jewelry, introduces new collection of Tungsten Carbide and Ceramic Wedding Band Rings. The new additions complement the existing collections of stainless steel and 925 sterling silver jewelry. All items are available at China Price, for retail and wholesale. Compared to other online stores that price at hundreds of dollars, the high quality Tungsten Carbide rings and hi-tech Ceramic rings from The China Inventory only price between US\$20 to US\$30 for retail customers, including Free Worldwide Shipping.

Featuring a large collection of styles, customers can find elegant, modern designs combined with the simplicity of traditional wedding band rings. Tungsten Carbide and hi-tech Ceramic rings are favored by many customers because the rings are scratch-free and look new forever.

In additions to our Tungsten Carbide and hi-tech Ceramic collections, TheChinaInventory.com also features large collections of Stainless Steel Jewelry and 925 Sterling Silver Jewelry, with ranges from gentlemen styles to special Cross collections, as well as Gothic and Skull collections.
