

## **Southern Modular Industries, LP "SMI" Gains Manufacturing License for Florida**

Houston, TX, August 31, 2006 --(PR.com)-- Southern Modular Industries, LP “SMI” continues to expand their coverage area. SMI recently gained approval from the State of Florida as a manufacturer of commercial and educational mobile/modular structures. This news came days after SMI celebrated the completion of their 150th building. Many of these structures were multi-unit complexes supplied to SMI's dealer network throughout the Gulf Coast and Central region.

SMI is dedicated to providing the highest level of service, quality, and cost competitive structures to its dealer distribution network. The addition of Florida to the many other states in which SMI is currently certified to manufacture structures shows the commitment SMI continues to make to meet the needs of their dealer distribution network.

Headquartered in Houston, Texas, SMI and has more than 100,000 Square Feet of manufacturing space dedicated to providing high quality commercial modular products to its distribution partners. SMI is a wholesale manufacturer that markets its buildings through its dealer network. SMI's primary market segments are education, commercial, government, medical and other related custom modular markets. SMI's structures are designed for either temporary or permanent use. SMI is licensed to manufacture building for Texas, Louisiana, Mississippi, Alabama, Oklahoma, Arkansas, Kansas and Florida.
