

topseos.com Presents the September 2006 List of the Leading Search Engine Friendly Web Development Firms

Plymouth, IN, September 05, 2006 --(PR.com)-- topseos.com has just released its latest list of the top Search Engine Friendly Web Development firms, consultants and services. Keeping consistent with the past years, the website continues to be a reliable and trustworthy resource for evaluating Internet marketing vendors. The aim of this list is to take the work out of researching and selecting Search Engine Friendly Web Development.

Since it was launched in 2002 by e-venturers, topseos.com has consistently provided Internet marketing and service providers with a platform to showcase their services. The website is a distinct portal where the search engine marketing industry and companies can find all the information they need when researching an Internet marketing vendor.

Over the years the amount of information available on the Internet has multiplied many times over. In such a circumstance, it is extremely important for websites to differentiate themselves in order to grab the attention of their potential clients. That is where utilizing search engine friendly web development comes in. By using search engine friendly web development, major search engines can locate any given website on the net. The right SEO codes will allow search engines to spot the website after which it will directly reach Internet users.

An important concept to keep in mind when developing a website is that even seemingly insignificant aspects such as the Internet connection of the site visitor, the colour coding and other such factors play a crucial role in how a website is used. The development stage is extremely important and should never be underestimated. When developing a website, convenience to the user should be given utmost importance.

Here's the list of the top 5 Search Engine Friendly Web Development firms that have been selected for September 2006:

1. red : rain Solutions - India
2. 2advanced.com - California
3. Red Clay Interactive - Georgia
4. delphicsage.com - Philadelphia
5. avenuea-razorfish.com - Washington

A meticulous selection process precedes the ranking of the finalists on this list. For this reason the search engine marketing industry has always found accurate ranking from topseos.com. The selection of the candidates is based on the following criteria:

- Competitive advantage
- Superior services and pricing
- Functional design

- Customer and technical support
- Response to client problems
- Information architecture
- Innovations that set it apart from the competition
- Usability
- Reliability

Firms that specialize in Search Engine Friendly Web Development and wish to be considered for the topseos.com rankings can complete an application by registering as a service vendor and applying for rankings at:
