

SuperTova.com Announces Its Launch as a 100% Free Jewish Internet Dating Site

100% Free Jewish internet dating site that was developed for the community.

New York, NY, November 21, 2009 --([PR.com](#))-- [SuperTova.com](#) is one of the newest internet dating sites that has recently been launched. It's developed as a 100% free Jewish internet dating site.

The modules that were installed on the site are similar to most of the member fee related sites. These modules include chat, IM, search by zip-code, profile builders, photo uploads, and member contact (inbox/outbox). It has the capacity to do everything any paying site has to offer, however, the only difference is that there are No member fees.

SuperTova.com is developed only as a free Jewish dating site, which means they have no intention of transitioning into a paid site. The homepage states clearly that this will never happen. The objective of the site is to give back to the Jewish community, thereby, making it easier to promote Jewish dating and Jewish marriage. The elimination of member fees will make it even more possible to reach their ultimate objective.

The users also have forums in order to discuss or touch on certain dating related subjects. Further, success story submissions and letters to the editor are made available as well.
