

Danik MedSpa Steps in to Help Former Clients of Closed Medical Spas

Discounts Offered to Patients of Now-Defunct Laser Lounge and Simple Aesthetics.

Pembroke Pines, FL, January 26, 2010 --(PR.com)-- Due to the recent closing of Laser Lounge and Simple Aesthetics, Danik MedSpa is now offering discounted services to all clients who suffered an interruption of treatments and/or a financial loss for prepaid services.

Located in Pembroke Pines at the intersection of Hiatus and Pines Blvd., Danik is less than a mile from Laser Lounge and Simple Aesthetics, making it a convenient alternative for clients of both closed medical spas. Stated Danik Spa Director Marilyn Segura, "I want to assure the clients of Laser Lounge and Simple Aesthetics that they have not been abandoned. Danik is here to continue their treatments and offer them a full range of additional services at prices that will help make restitution for any financial loss suffered. I also want to emphasize that this facility is locally-owned and highly successful. In short, we're here to stay."

Danik MedSpa is a licensed, full-service medical spa and wellness center. All medical services are performed by a physician (MD), physician assistant (PA), or advanced registered nurse practitioner (ARNP) under the direct supervision of a medical director certified by the American Board of Plastic Surgery.

For Laser Lounge and Simple Aesthetics patients interested specifically in laser hair removal, Danik uses the latest state-of-the-art equipment, employing a patented contact cooling technology that renders the procedure virtually painless. This cutting-edge technology is FDA-approved, effective for all skin types, and treatments are administered by fully-licensed practitioners.

In addition to laser hair removal, Danik offers a complete line of laser, rejuvenation, wellness and anti-aging therapies. All equipment, products and treatments are FDA-approved, and all therapies are administered by certified and highly-experienced treatment practitioners. Areas of treatment specialization include Weight Reduction, Complete Body Sculpting, Chemical Peels, Acne Laser Treatment, Laser Vein Removal, Medical Grade Botox and Dermal Filler Injection, Non-Surgical Face Lifts, Photo Rejuvenation, and Fractional Skin Resurfacing.
