

Trustfield's Web-Based Email Delivers Power & Anywhere Convenience

New Release Adds Features to Benefit Business and Home Users.

Orlando, FL, November 01, 2006 --(PR.com)-- Trustfield, announces the release of Web-Based Email 4.0, coupling the benefits of a desktop email program with the convenience of a Web-based platform.

Trustfield's Web-Based Email Accounts are fraud, spam and virus protected, POP3-configured and advertising-free. Each account offers you@yourdomain.com personalization for a truly unique e-mail identity, generous disk space to accommodate large attachments and access to accounts from anywhere with an Internet connection.

Web-Based Email 4.0 is a feature-rich upgrade to Trustfield's already successful email program, giving customers many NEW features:

- Instantly preview email messages while scrolling through them in the inbox
- Unique Drag and Drop to quickly move email messages for easy filing
- Search your email OR the entire Web in a single click and save searches for future reference
- Create folders from any screen view without a complicated folder management interface
- Customize the program's appearance by choosing from among a wide variety of color palettes
