

Construction Insurance Broker Gets On Bike

Wokingham, United Kingdom, February 16, 2007 --(PR.com)-- Robin Nathan, a [construction insurance](#) broker for BJP insurance in Wokingham, UK has set himself the challenge of raising £10,000 for charity in 2007 by getting on his bike!

Robin will be taking part in ten rides this year - including London to Brighton, Oxford to Cambridge, Paris to London and a couple of rides in Cyprus - in aid of The British Heart Foundation, Great Ormond Street Children's Hospital and other local charities. He said, "We have done some rides in the past, and raised a few hundred quid, but this year I wanted to make a real difference, and as I love cycling, this seems an ideal way to do it."

The first ride is in May, the last in September so Robin will be taking part in two rides each month. To support him please go to www.bjpinsure.com and click on the "BJP In the Community" button.

The rides are mainly UK based and are between 50 and 85 miles long, with the notable exceptions being Paris to London (285 miles over four days) and the rides.

The aim of the rides is to raise a minimum of £10,000 to split between The British Heart Foundation, Great Ormond Street Children's Hospital and local charities.
