

topseos.com Recognizes Consistent High Ranking of SEO Image in the Organic Optimization Category

Plymouth, IN, March 01, 2007 --(PR.com)-- "SEO Image has been the common factor in the monthly rankings of Organic Optimization sites, since October 2006. We wanted to recognize this internet marketing firm because of the steady growth it has shown since it first emerged on the rankings."

Bill Peden's words seem a little restrained when pitted against the reality. Apart from being just a common factor, for the past 3 consecutive months (December 2006-February 2007) SEO Image has retained its position as the top ranking firm in the Organic Optimization category.

"Given that there are firms that disappear within the span of one month, retaining the top position for three consecutive months is an achievement that needs to be recognized. And SEO Image is a company that we would highly recommend because it has demonstrated the ability to adeptly handle large sized projects."

Apart from being #1 in the Organic Optimization category, SEO Image has also been one of the top 5 firms in the category of Pay Per Click Management for the past consecutive months.

For the past five years, topsaos.com has been publishing monthly rankings of internet marketing firms in eleven categories. Apart from a reputation for being a reliable source of information, topseos.com is also known for its many initiatives to attract new partners, and reward existing ones.
