

Calming the Storm

The Spiritual Warriors Foundation, Inc. would like to thank all Spiritual Warriors who worked to affect the recent Hurricane Rita, helping to change the extreme damage that had been forecasted. The actual damage caused by this monster storm was much less than expected, showing that it is possible for us to change the weather using prayer, meditation, and positive belief. Scientific research is beginning to show the connection between our consciousness and our physical world.

Martinez, GA, September 29, 2005 --(PR.com)-- The Spiritual Warriors Foundation, Inc. would like to thank all Spiritual Warriors who worked to affect the recent Hurricane Rita, helping to change the extreme damage that had been forecasted. Congratulations on a job well done! The actual damage caused by this monster storm was much less than expected, showing that it is possible for us to change the weather using prayer, meditation, and positive belief.

As Hurricane Rita was bearing down on the Texas Coast on September 23, 2005, the fear increased that this storm might create the same level of destruction caused by Hurricane Katrina just a few weeks before. The Texas oil refineries were also threatened, leading many to forecast another spike in gas and oil prices caused by shortages that might result. But then, at the last minute it seems, the storm was downgraded and moved to the right. As a result, it missed this vulnerable spot, causing only minimal damage. Of course, this was a great relief for everyone, because we had seen the great devastation caused by Katrina, and Rita had looked just as menacing.

Now, many people in our society may not believe this is possible, but the Truth is that the Spiritual Warriors had a direct impact upon creating this change. The Power of Prayer is truly awesome. When it is aligned with God's Will and Timing, such change is always possible. Also, it is important to use the Power of Meditation to Focus in the positive change that is hoped for. And of course, we must Believe. When we believe, focus, and align with God, all things are possible.

For those who may NOT believe that such great work is real, we encourage you to consider the fact that science is beginning to study the connection between our consciousness and our physical, material world. For example, most of the surface of our Earth is made of water, and Dr. Masaru Emoto (masaru-emoto.net) has shown that the molecular structure of water is changed by thought, and prayer. Since a Hurricane is made of water, it is only logical that our thoughts and prayers could affect a storm. In addition, groundbreaking scientific research by William Tiller, Ph.D. (tiller.org), John Hagelin, Ph.D. (hagelin.org), Fred Alan Wolf, Ph.D. (fredalanwolf.com), among others, show that our society may be about to experience a major paradigm shift, as our awareness increases. The Spiritual Warriors Foundation is dedicated to supporting this shift and helping everyone to realize the enormous potential of the applications of this research.

For many, it may seem that we are helpless in the face of a huge storm like Katrina, but this not true. Instead, now is the time to change our thinking and see that there is something we can do. Even though Rita had similar potential to cause major devastation, the massive destruction and loss of life did not happen as predicted. Is it possible that we actually have the power to Calm the Storms?

The Spiritual Warriors Foundation, Inc. is a Non-Profit Corporation that has been formed to support all Spiritual Warriors that are working to assist this great work. The difficult weather patterns are just one aspect of the many difficulties that are manifesting in our World. Our Foundation is dedicated to transforming these situations and creating positive change. We are here to help show what we need to focus our energy upon. We can help you to know what to do and how to do it. We encourage everyone to help, because the more of us that work together, the stronger we are. Together, we can achieve our goal of creating a true and lasting Peace on Earth.
