

A Healing Touch Announces It Is Now Carrying the "CervAlign" Therapeutic Pillow by Core

Show Low, AZ, April 04, 2007 --(PR.com)-- A Healing Touch is announcing their 2nd Quarter Promotion for Chiropractors and Rehab Centers starting on April 1 through June 30, 2007. The CervAlign Pillows by Core Products are headlined. Because one size pillow is not adequate for every size person, these unique pillows were created in three different lobe sizes to accommodate the patient.

This program is being offered with a different type display rack for the Doctor's reception area. The display will provide Doctors and Therapist with a set of patented pillow fitting guides to make sure the patient is fitted properly. Chiropractors know how beneficial a properly fitted cervical pillow can be to their patient's health.

A Healing Touch.biz is excited about the opportunity to educate Chiropractors and Rehabilitation Centers nationwide on the potential profit by using their reception area for health related retail products. The profit margin for this promotion is very good and takes up very little space. Brochures are provided to explain to the patient how the pillow will affect their well-being. Heather Flanders, the owner of A Healing Touch says, "I was having trouble with my hands going to sleep at night and the CerValign has help to alleviate this."

###
