### About [Super Sexy](#):

Anna Pereira wanted to create a one-of-a-kind garment that was composed of the highest quality elements available for all Super Sexy females! She devised a plan to create a clothing line that allowed the customer to express themselves utilizing the elements of:

Airbrushing - Since there are so many beautiful paint colors and the design itself stretches with the garment, the design doesn't pucker, crack, fade or peel off.

Genuine Swarovski Crystal Rhinestones, individually hand applied - only the most magnificent rhinestones, individually applied, would satisfy her; Rather than cheap rhinestones that are affixed with unsightly 'prongs' around the rhinestones (not to mention a nuisance).

Unique Exclusive Originals - Allowing you to have a hand in designing your own garment. Super Sexy garments are made in the USA and machine washable.
