

International School of Arizona Secures New Facility for 2007/8 School Year

Scottsdale, AZ, May 04, 2007 --(PR.com)-- The International School of Arizona secured a new school facility for the 2007/8 School Year last week. The school will relocate in July and start the next school year at 9128 E. San Salvador Drive in Scottsdale. The new building is over 14,000 square feet and can accommodate growth up to 250 students. It is located just south of Shea Boulevard, East of the 101 Freeway near Via Linda and 90th Street.

The new building will house ISA's three language tracks: French Pre-School & Elementary, Spanish Pre-School & Kindergarten, and German Pre-School and Kindergarten.

ISA's future campus is currently being occupied by BASIS Charter School. BASIS and ISA came to an agreement that accommodates both school's growth plans. ISA is moving from a smaller building in South Scottsdale and BASIS is moving to a larger facility off of Shea in East Scottsdale. No major renovations will be necessary since the building will be used for similar purposes.

To contribute to the relocation efforts (volunteer help, in-kind donations, charitable contributions) please contact the school office 480-874-2326 or isa@isaz.org.

About the School

The [International School of Arizona](#) (ISA) is a Scottsdale, Arizona based Pre-School and Elementary school that provides outstanding education through second language acquisition and multicultural learning following European Education Systems and Arizona State Standards. ISA was founded in 1997 as a non-profit, private school bringing a different culture awareness to children of ethnically and socially diverse backgrounds. The school started with a French immersion program and later adding a Spanish immersion track in 2005. The school has a German immersion track scheduled to start in Fall 2007. It is ISA's mission to provide its students with the fundamental tools of learning while giving them the opportunity to discover a new language and a new culture.
