

## **InstaTest, Inc., SWFL's Drug Test Consultant, Begins Operations in the Lee, Collier and Charlotte County Areas of Florida**

*InstaTest Inc. provides highly reliable home drug testing programs to parents who are concerned that their teens are using drugs. The drug tests identify the presence of the ten most commonly used drugs among teens today. InstaTest Inc. provide step by step instructions on how to administer the drug testing program. All of their tests are urine or saliva based and FDA approved. The program provided by InstaTest, Inc. is a complete approach to educating the family and preventing drug abuse.*

Cape Coral, FL, May 06, 2007 --(PR.com)-- InstaTest, Inc. owned by Laurie E. Miller has begun operations in the Lee, Collier and Charlotte County areas. InstaTest, Inc. provides home based [drug test kits](#) to parents who in an effort to ensure their youngsters live in a healthy, drug-free environment are turning to the validation and peace of mind that a home drug test can provide. The kit consists of a 10 panel urine drug test, saliva based alcohol swab test, information on what to look for and the steps that need to be taken to ensure drugs are not being used.

Jerry Lotterstein, President of the Drug Test Consultant program, said, “The statistical evidence documenting the escalation of drug use in our society is staggering. Studies show that home drug testing can play an important role in reducing drug abuse among youth. We believe that our in-home drug test is a valuable intervention tool in the war against drugs.”

Ms. Miller stated she is “both pleased and proud to be a part of the solution and have the opportunity to play a meaningful role in the anti-drug effort. This timely program gives parents the control to definitively identify drug use, and to then seek the vital counseling and treatment needed for their children.

Ms. Miller is available to address educational, civic and other groups on the topics of drugs and youth and the myriad of treatments, assistance and government agencies available to the public.
