

## **Jackpots in a Flash Available on Jeu de Casino en Ligne Offering Super Fast Casino Games**

*Jackpots in a flash are an online casino that caters for fast online casino games without downloading software to your pc. According to George Macdonald one of the directors of Jeu de casino en ligne. Casino software downloads should not be an issue any more for players that want to play casino games online.*

Paris, France, May 24, 2007 --(PR.com)-- They have included the Jackpots in a flash casino to their website as one of the best online casinos on the internet - one of the reasons why they awarded jackpots in a flash with this prestige's award is that the casino offers super fast online casino games in flash. Jackpots in a flash make use of the Macromedia Flash platform to deliver their casino software to players.

The major advantage of delivering the software through the Macromedia Flash platform is that players do not need to download the full version of their casino games and only download the specific game while in the flash application. This saves on bandwidth and also increases the overall gaming speed. In the past players had to download the casino software to their pc before they could start playing casino games. With the games available in flash now, players can virtually immediately start playing.

In some countries like china this will come as much welcomed and anticipated news as most people in china still access the Internet via telephone lines and could not download the casino games due to constant time-outs. The average connection in China provides about 56 kbps of bandwidth and is considered to be extremely slow. The connection is so slow, in fact, that people have taken to calling dial-up Internet service the "world wide wait."

With jackpots in a flash casino games bandwidth has now become less of an issue and players can now start playing the games!

According to George Macdonald they have started the Jeu de casino en ligne web site as one of their primary means of promoting casinos online and carefully selects the best online casinos from the Internet to market from their websites. Currently they are promoting some of the best online casinos on the Internet with big names in the gaming industry like roxy palace casino; spin palace casino, casino splendido and now [Jackpots in a flash](#).

According to Macdonald you can go to their website for a full review of the casinos that they have identified as the best online casinos on the internet and read more about each of these casinos.

Like Jackpots in a flash find out what they think of the casino, its games, their payout times and more, like the jackpots If you are a slots casino game fan you will love the jackpots, especially Jackpots in a flash casino with all the jackpots Jackpot Madness slot machines hold the undisputed title for largest progressive jackpot payouts in the online gambling industry.

According to Macdonald when he did the review for Jackpots in a Flash casino they had more than 190

online casino games and their jackpots stood on more than \$3 570 000.00 million. They also have the Major Millions jackpots that stood on \$ 422 300.00 thousand. King Cachalot jackpots that stood on \$ 190 800.00 and the lots a loot jackpots of \$ 25 000.00 and Cash splash that stood on \$ 37 000.00 thousand.

These jackpots continue to grow every second until they are won increasing your chance to win by almost every second and the jackpots just gets bigger and bigger except of course if any one wins it.
