

Turn Your Bath Into an Organic Spa

Danville, CA, June 06, 2007 --(PR.com)-- At the end of a long day or week, you might be dreaming of a spa retreat to take you far, far away. If a trip to the nearest spa or resort isn't in the cards, don't despair. With EclipseSpa organic bath and body products, you can escape into your own spa experience right at home.

Fill your bath with EclipseSpa's Fizzing Bath Salts or Organic Sugar Soy and Tea Bath, both designed to relax muscles and soften skin. Choose your favorite fragrance—lavender to relieve stress and soothe your soul; red roses to invigorate and renew; or white tea and ginger, two timeless Asian hypnotic scents that will stimulate your senses. Have some loofah sponges on hand to naturally exfoliate your skin. Use them to give yourself a gentle massage. Fluffy towels, plush bathrobes and the EclipseSpa Soy Candle Collection help to transform mundane rituals into the perfect way to end your day.

Why Organic:

Your skin is the largest organ of your body, allowing all sorts of toxins into your bloodstream. When you choose organic products from EclipseSpa, you're choosing to protect yourself from ingredients that are known to be harmful. The FDA doesn't regulate the cosmetic industry. As a result, companies can put just about any ingredient into our personal care products. Many brands contain known harmful ingredients, such as phthalates, linked to both male and female hormone function; mercury, which can cause low function brain damage; lead, which was removed from house paint, but still remains in certain hair dyes; hydroquinone, known to cause blue-black skin lesions and parabens which have been linked to breast cancer.

EclipseSpa's products contain herbs and additives that have been certified organically grown and have not been fumigated, sprayed, irradiated, or tested on animals. Their Shea butter has been purchased using Fair Trade pricing and supports the tribal women of Ghana, Africa. Every time you use an EclipseSpa product know that it does not contain harmful ingredients for your body.

About the owner:

After 26 years in the dental field, Anne Keefe knew it was time for a change. While enjoying spa trips through out the United States and Europe, she wanted to find ways to share her experiences with friends and family. Spa experiences though, should be healthy. And after doing hundreds of hours of research, Anne found that some of the products that we put on our skin in the pursuit of good health contain known carcinogens. Anne decided to start her own line of spa products that would recreate some of her favorite spa experiences, but with the benefits found from using only organic ingredients.

Quick Bite:

EclipseSpa is an online store and informational site designed to provide high quality organic bath and body products. The site provides monthly spa recipes and reviews of spas across the country. EclipseSpa is proud to sponsor Necessities, a non-profit organization that supports Mastectomy Patients with their Necessities Bag.

For more information, contact Anne Keefe at EclipseSpa at (925) 743-4198.
