

Celergy Networks Hires New Sales Executives - Pair Brings Over 18 Years of Combined Telecommunications and Technology Sales Experience to Round Up National Sales Team

Carlsbad, CA, July 03, 2007 --(PR.com)-- Celergy Networks, a national leader in the field of [structured cabling](#) and IT infrastructure design and installations, today announced that Jeffrey Jones and Brian Rhodes have joined its nationwide sales team as Southeastern Regional Manager of Sales and respectively Southwestern Regional Manager of Sales. Mr. Jones will be based out of Franklin, Tennessee a Nashville suburb, while Mr. Rhodes will be operating from Dallas, Texas.

Prior to joining Celergy Networks, Mr. Jones served as President of Business Development and Co-Founder of Information Transport Systems, Inc. where he was responsible for all aspects of securing and growing National Accounts. Mr. Jones has excelled in the Telecommunications and Technology Sales and Support Industry for over 8 years, working for companies such as Progressive Technologies and BlackBox Network Services, Inc. He was involved in numerous retail roll-outs and large scale equipment implementations in regards with voice and data cabling, fiber optics, Wireless AP's, large PBX and Key Systems, POS, overhead paging, MDF and IDF build-outs, outside plant, access control, DVR and facial recognition security systems. Mr. Jones holds a BS degree in Marketing Management from Florida Southern College in Lakeland, FL.

Prior to becoming part of the Celergy Networks, Inc. team, Mr. Rhodes spent 10 years in the wireless telecommunications industry with various regional and national roles in sales and marketing for companies like Ericsson, Inc., CellStar LLC and GTE Mobilnet.

“We are extremely pleased to have Jeffrey and Brian join Celergy's outstanding national sales team” said Mark Modricker, Celergy's VP of Sales. “Jeffrey brings national accounts management experience with nationwide companies such as The TJX Companies, Inc., Macy's, LifePoint Hospitals, Hospital Corporation of America and XO One Communications. Brian offers a wide range of industry knowledge - from strategic planning, to wireless connectivity and traditional cable installation. Together they round up our national sales team”.
