

CxT Group, Inc. Was Retained by International Pain Institute to Optimize Additional Website

Detroit, MI, July 11, 2007 --(PR.com)-- CxT Group, Inc. (www.cxtgroup.com) was retained by La Jolla, CA-based International Pain Institute to optimize their online presence.

International Pain Institute is La Jolla, CA-based interventional pain clinic lead by the world-renown professor of medicine and surgery Dr. A. Krakovsky, M.D., PhD., Dr., Sc. International Pain Institute provides effective solutions to alleviate pain. Clinic's website, www.internationalpaininstitute.net contains valuable information on different types of pain, procedures to ease the pain, large collection of articles and lectures.

CxT Group, Inc. was originally hired by International Pain Institute in April of 2007 to optimize one of their websites. "I have been with CxT Group, Inc. only for a few months and I have to admit that they are doing a very effective job in positioning our website from the ground-zero position to the level that becomes recognizable. CxT Group, Inc. provides effective platform for appropriate communication between the client and the media, manually releasing the information to the major search engines. This allowed us to build up a solid platform for future business development." said Dr. A. Krakovsky, M.D., PhD., Dr., Sc.
