

## **Hydrowarehouse.com Carries Hydrofarm Powerhouse Ballast Products**

Detroit, MI, July 30, 2007 --(PR.com)-- HydroWarehouse.com, an online distributor of discount hydroponics supplies, announces the addition of the Hydrofarm line of ballast products as part of its extensive online catalog.

Hydrofarm, the nation's oldest and largest manufacturer of hydroponics equipment and grow lights, in operation since 1977, builds quality into its products, with only premium components and professional grade materials used. Each of the electromagnetic ballast series has been evaluated and tested by the renowned Underwriters Laboratory. All of them have received the coveted UL listing. Over the years Hydrofarm has heavily invested in engineering, testing and certifying the performance, quality, and safety of their ballasts.

Hydrofarm brand ballasts have the best reputation for trouble-free operation in the lighting industry. It's one reason HydroWarehouse.com is pleased to carry the Hydrofarm line of hydroponics supplies and equipment.

Hydrofarm brand products are the choice of more indoor gardeners and gardening retailers than all other brands combined.

[HydroWarehouse.com's](http://HydroWarehouse.com) secure online catalog features the Hydrofarm line of ballast, as well as more than 1,000 other hydroponic products, hydroponic systems and hydroponic equipment and gardening products, all to allow customers to garden year-round inside their homes. The online shopping cart provides state-of-the-art features to ensure security and convenience.

HydroWarehouse.com offers the best in hydroponic products as well as world-class customer service at warehouse prices. If you have any questions or would like to place an order, visit [www.hydrowarehouse.com](http://www.hydrowarehouse.com).
