

## **Single Property Sites Joins Realtor.com Picture Path Program**

*Single Property Sites has joined the PicturePath(tm) virtual tour program providing Agents with the ability to send their property sites as virtual tours to Realtor.com®.*

Denver, CO, August 01, 2007 --(PR.com)-- Single Property Sites Inc. (<http://www.SinglePropertySites.com>) announced today that it has joined the PicturePath(tm) virtual tour program, which will enable Real Estate agents to automatically post their Single Property Site listings directly to Realtor.com®, the Internets number one real estate site.

According to Homestore Inc. (operators of the Realtor.com web site), the "Featured Tour" home-search option is clicked more than 120,000 times per day by consumers searching for homes. Posting a property website through PicturePath's virtual tour program ensures that Realtors® can take advantage of the "Featured Tour" links by having their Single Property Sites listings linked with the Red Spinning House.

For Realtors who have 'Enhanced' listings with Realtor.com, Single Property Sites offers this service at no charge. Otherwise there is a small fee to cover the cost of the service.

Reaction from clients has been positive. Angela Jepson, a Realtor in CA said, "This truly is a one stop marketing system for all my listings."

"The overwhelming demand from home buyers is for more photos and visual tours. By joining the PicturePath program, Single Property Sites continues to help our Realtor clients differentiate themselves and gain easy access to sophisticated marketing approaches," said Paul Eastwood, founder of Single Property Sites Inc. "Our aim is to simplify and combine technologies so that we can continue to add value to our leading listings marketing solution."
