

Distributors Now Available in the US

Adding to our successful 3 year track record of selling Child, Adult, and Pet Identification Franchises and building great affiliations with Team Amber Alert, Yello Dyno, Toothprints, and National Sex Offenders to name a few we are now adding Distibutors. We want to be the educators of the Safety Information and offer products that will enhance this mission.

Powell, WY, December 22, 2005 --(PR.com)-- Safe Kids Card, Inc. has developed Do-it-Yourself kit's to make wallet sized CD ID's for children, adults, and pets. We have designed this package to include 2 CD ID's and all the tools to make your own CD ID in the privacy of your home, without the fear of a database involved.

We have been operating as a successful Franchise only for the past 3 years, and will now be adding key distributors all over the rest of the US to give everyone the opportunity to get involved. We are now selling our DIY kits online with other safety items and links to our affiliates to make you and your family more alert and safe.

We live in a world of uncertanty and change now, where we hear bad news everyday. With our products and affiliations with other safety minded organizations, together we will educate on how to be safe and more aware of our surroundings.

If you would like more information on how to become a distributor go to www.myfamilycd.com and click on the distributor link on the left hand column. If you have questions, please send to info@myfamilycd.com

We wish you a Safe Happy Holidays and New Year.
