

Real Foreclosure Reports Launches Website Servicing Charlotte North Carolina

Real Foreclosure Reports launches its online foreclosure reporting service in Charlotte, North Carolina. Realforeclosurereports.com provides detailed reports for properties facing foreclosure. This service is excellent for real estate investors seeking great investment opportunities.

Charlotte, NC, August 31, 2007 --(PR.com)-- Real Foreclosure Reports (www.realforeclosurereports.com) provides detailed property reports to real estate investors in Charlotte, North Carolina.

Michael Park, President and CEO, is a practicing real estate attorney and developed www.realforeclosurereports.com after receiving numerous requests from clients for foreclosure information.

The focus of www.realforeclosurereports.com is to provide the most complete information possible. Reports include full property information, the latest filing status (i.e., Petition for Foreclosure"), existing mortgage liens on the property, and taxes due, judgments that would impact the property, and recent comparable sales data.

Unlike other foreclosure information services, www.realforeclosurereports.com, focuses on in-depth reports vs. mass data, which is highly unreliable.

Michael Park plans on expanding the coverage area of www.realforeclosurereports.com to a national stage over the next 12 months.
