Newport Beach, CA, September 10, 2007 --(PR.com)-- A new gift line of 19 aromatherapy candles with such names as Panic Attack™, Quick Fix™ and Chill Out™ has been introduced by Aromatherapy Interventions™, a Newport Beach, CA company.

“The candles are based in serious aromacology, the science of scent,” says John McKee, CEO, “We just had a little fun with it.”

Citing Frankincense as an example, McKee notes the scent has long been associated with inner peace. “We recommend it for unfounded panic attacks.” Pointing to the Panic Attack™ package he reads: “Aromatherapy for general fears of job loss, computer viruses, blind dates and weapons of mass destruction.”

The line of 19 candles includes Unwedded Bliss™ with fig leaf and lime, Birthday Acceptance™ with essence of sandalwood and patchouli, and Workaholic™, an uplifting mint and citrus blend devoted to those who'd like “to work 24 hours a day, 8 days a week.”

The complete product line can be viewed at: [www.aromatherapyinterventions.com](http://www.aromatherapyinterventions.com)

The Aromatherapy Interventions web site also provides wholesale order information to the trade, description and content of each candle, and a display of the merchandising program.

Aromatherapy Interventions™ is a California based company producing hand-poured aromatherapy candles: all scents, glass, cotton wicks, soy wax, packaging and printing are solely derived in the USA.
