

Elizabeth Jekot MD Breast Imaging Center in Richardson, TX Recently Voted One of the top 5 Most Influential Women's Centers to Watch in 2007 by Imaging Technology News

Local Breast Cancer Doctor and Breast Cancer Survivor Available for Interviews During October's Breast Cancer Awareness Month

Dallas, TX, September 20, 2007 --(PR.com)-- Award Winning Breast Radiologist & Breast Cancer Survivor Elizabeth Jekot MD

What:

The Elizabeth Jekot MD Breast Imaging Center in Richardson, TX was recently voted as one of the top 5 Most Influential Women's Centers to watch in 2007 by Imaging Technology News. A local breast radiologist and breast cancer survivor, Elizabeth Jekot, MD, offers leading-edge breast screening, diagnostic breast imaging, image guided biopsies and bone densities at her center.

Who:

- Dr. Elizabeth Jekot is a radiologist and a breast cancer survivor who thanks to early detection and treatment has remained cancer free for 7 years now.
- 4 out of 5 women in her immediate family (herself, 2 sisters and mother) have been diagnosed with breast cancer.
- Her facility, the Elizabeth Jekot MD Breast Imaging Center was ranked by Imaging Technology News as one of the top 5 women's centers to watch in 2007
- She is the mother of a 10 year old daughter, Katie
- Winner of the 5 K Survivor event of the North Texas Affiliate Susan G. Komen Race for the Cure for the 4th year in a row.

When:

Interviews can be scheduled upon request
