

Thump Records to Celebrate 10 Years in Partnership with Universal Distribution with the Release of "'Nothing But the 'Bangas'" and the Debut Album from Artist Troy Cash.

Los Angeles, CA, September 28, 2007 --(PR.com)-- Thump Records has many surprises for the last quarter of this year. Starting with the highly anticipated release of R&B artist Troy Cash called Hard Luv, and continued growth and success of the Nothing But Bangers CD, featuring a compilation of fresh Latin Hip Hop produced by the silently acclaimed David Salas who is quickly becoming known as an explosive force in the Latin Hip Hop world. Noted tracks from the Nothing But "Bangas" CD have been used in a new John Singleton Film "Illegal Tender" and feature the cultivated talents of artists: Que No, Mal Hablado and Mariana G.

In addition, Thump is gearing its studio up for shooting live videos, which will broadcast on the new Thump Broadband site for streaming video. The videos will air right along with Cruzin' TV yet another Thump creation, which has reached its 5th season and is nationally distributed to reach audiences of 20 million potential viewers.

Much has yet to be seen from Thump Records in the coming months. Troy Cash is just one among many surprises Thump Records has up its sleeve. As the music industry is taking its turn, Thump founder William Walker is staying ahead of the game. Along with signing new R&B artists and Latin rap artists, Walker has his hands in a few other ventures that will bring a new meaning to Thump.
