

Skilled Partners Launches Skill Game Affiliate Program

Skilled Partners revolutionizes the business and offers up to 40% rev share on cash money trivia games for US market

Tel Aviv, Israel, October 07, 2007 --(PR.com)-- Skilled Partners (www.skilledpartners.com) is proud to introduce the first affiliate program for online trivia games, a development addressing the growing demand for legal cash money skill games. Paying up to 40% revenue share or \$80 CPA, Skilled Partners offers an alternative for affiliates looking for a profitable and legal product to promote in the US.

[Trivia On Net](#) - Skilled Partners main product - features a web 2.0 inspired trivia community where members participate in fast, competitive multiplayer games and tournaments for free or cash money. The latest development in its field, the trivia software features multiplayer tournaments, games against the clock, jackpot races and more, covering popular subjects like sports, movies, music, and general knowledge. Players can chat with and receive private messages from other users, create new games, and post their own questions and quizzes for credits.

Player retention features include social networking tools such as blogging, image and video sharing, friends list, discussion groups, and more. Currently the software addresses mainly the English speaking markets, and in the future will add localized versions. The first to offer trivia lovers a chance to make money off their favorite game while competing against each other in an innovative software, Trivia On Net provides online games 24/7.

Due to the latest US legislation, many Americans are looking for a legal alternative to multiplayer poker, and the communal feel along with the spirited skill-based atmosphere of the fast paced trivia games create a real alternative for players and affiliates alike.

The affiliate revenue structure is similar to poker: as players play against each other, the house receives a rake, and affiliate partners are paid off the rake generated by their referred players. Skilled Partners offers up to 40% revenue share and up to \$80 CPA, as well as a 3-tier sub-affiliate program, where affiliates make 10% off their sub-affiliates, 3% off their sub-sub-affiliates, and 1% off the third tier.

Skilled Partners provides its partners personal service as well as real-time stats and advanced marketing tools, affiliate support, and prompt payments. The trivia games are a fresh market in the online gaming world, and it is expected to grow considerably in the near future.
