

## **MiracleTruss Launches New and Improved Website**

*New website provides valuable information to consumers looking for versatile steel buildings.*

Minneapolis, MN, October 03, 2007 --(PR.com)-- [MiracleTruss](#), industry leaders in steel buildings, has launched a new website to educate people on the benefits of [steel building kits](#) and help them discover the right one.

"Our new website is organized better to help people find the pertinent information they need when it comes to making the decision to build a steel building," said Justin Dekker, Chief Operating Officer. "Visitors can read about the different types of steel buildings they can order to meet their facility needs."

While their website is new and improved, MiracleTruss has been an industry leader in [steel building systems](#) for years. Countless people and organizations have turned to them for a top-notch pre-engineered building system.

"There is a need out there for people looking for steel buildings, but maybe they don't know where to start. That is where this new website comes in -- to better educate the consumers about a product they will personally or professionally benefit from," said Dekker.

[www.miracletruss.com](#) also features current special offers on steel buildings and free brochures to help you make a more informed decision.

"Our buildings are known for their superior strength and durability. They have proven this by surviving blizzards, tornadoes, hurricanes, typhoons and earthquakes without a single report of structural damage," said Dekker. "There are so many other reasons why one should go with a MiracleSteel building, but the main question is 'Why not?'"

Visit [www.miracletruss.com](#) for more information on how you can get started on your steel building today.

About MiracleTruss:

MiracleTruss is a leading U.S. manufacturer of [pre-engineered steel buildings](#) headquartered in Minneapolis, MN. MiracleTruss has a thirty five year history selling commercial, industrial, and residential steel buildings worldwide.

At MiracleTruss they do more work in the manufacturing center so less work is done on site. Their pre-engineered steel building systems are manufactured with American steel and are pre-cut, pre-drilled, and pre-welded at the factory for quick and easy assembly. The unique web truss frame design offers exceptional strength and durability, easy assembly, and design flexibility at affordable prices.
