

Search Engine Optimization Report Free: a Site Vs a Competitor

Released today, antRoar internet marketing offers an SEO Report for free. The report covers on the page factors relating to rankings in Google or Yahoo and is compared to a competitor.

Melbourne, Australia, October 11, 2007 --(PR.com)-- antRoar's free SEO report covers all the main criteria required to find out how good a web site's optimization is compared to that of a competitor.

The report distinguishes the differences between an optimized Google web site listing for specific keywords as opposed to what an un-optimized page would be. The free SEO report also compares a site's competitor with the same search engine optimization analysis.

The report includes Optimization Advice and Advanced Analysis which includes:

1. Optimization advice.
2. Advanced analysis.
3. General page properties.
4. On-the-page factors influencing rankings.
5. Competitor Analysis.

The information supplied with in the free report is both detailed and direct. The help advice is comprehensive and detailed and can be understood by anyone owning a web site business or wishing to.

The free optimization report is emailed to the respondent within 24 hours and is enclosed in a zip format.
