

Preserve Your Memories II

Precision-Blue, LLC is proud to announce its Unique Acrylic Coating that is VOC (Volatile Organic Compound) exempt, including a UV blocker, California Compliant Cat # 80201 and dries in less 2 minutes while taking on the texture of the material being coated.

Woodstock, GA, October 28, 2007 --(PR.com)-- "[Creative Imaginations](#) will distribute PMYII under its own "Super Seal" brand, and will be introduced at the CHA 2008 show at their booth #1472-73"

[Preserve Your Memories II](#) is truly the Next Generation for Coating Protection. This all in one, clear acrylic coating is VOC (Volatile Organic Compound) exempt by the EPA (Environmental Protection Agency), including a UV Blocker, Non-Yellowing, California Compliant Cat # 80201, solvent based, carcinogen free coating that dries quickly, less than 2 minutes. It is available in 6 & 12 oz. Aerosols, a 6 oz. Finger Pump and 1 gal industrial canisters with hose and spray gun. PYM II is also available in liquid form in one quart to 55-gallon drums for brush and roller applications. PYM II is great for crafts, altered artist, photographers, scrapbookers, teachers, homeschoolers, parents and grandparents that want to preserve their digital photos, inkjet canvas, water slip decals, newspaper clippings. Just about whatever you can create can be preserved and protected with Preserve Your Memories II. This products use will range across many industries beyond arts and crafts, such as printing, photography, woodworking, and many others.

Preserve Your Memories II is a coating that protects and helps to preserve whatever material to which it is applied. Spray it on newspaper clippings, ink-jet printed photos, canvas, children's artwork, wood, metals, and more to protect against color fading and yellowing. PYM II provides a protective, water repellent coating that takes on the texture of the material being coated. When applied to inkjet photos, dot migration will be a little as 1 to 4 microns or .0001 to .00002 of an inch.

Preserve Your Memories II was first introduced to the public as one of the top 100 products chosen by the QVC Decade of Discovery 2005 tour live from St. Louis. The product sold out.

Next PYM II was introduced to the Craft and Hobby Industry at the winter 2006 CHA Show in Las Vegas.

Preserve Your Memories II was chosen by several industry related magazines as one of the Hot Picks of the show. PYM II has also received great market acceptance at Simply Southern Conventions & Scrapbook Expo's.

On their website www.precision-blue.com there is unbelievable, must see demos of coating newspaper and inkjet photos.

The product has been thru several industry tests such as:
(ASTM G154-00a ASTM D2244-02 ASTM D6279-03 5030B/8260B).

The above results are also posted on their website.

Douglas Shepherd founder of Precision-Blue, LLC, invented Preserve Your Memories II & received a 32-point patent in 2002. PYM II was formulated with the environment and consumer as top priority. As aforementioned PYM II is VOC exempt and is under CA prop 65 regulations.

Sales are steadily increasing with distributors being added around the country. As Artist realize that they can now apply a protective coating to their creations without changing its appearance they are endorsing PYMII.

Preserve Your Memories II is manufactured in the USA, Woodstock, Ga.

"If you create a memory, be sure to, Preserve Your Memories II."
