

Treat Acne with Volcanic Sulfur Used for Centuries - Joesoef Skin Care

Acne. For centuries people around the world who suffered from acne and various skin disorders have traveled to Volcanic Sulfur springs where they would submerge their bodies to cure their skin ailments. Sulfur is a natural element when produced naturally from Volcanoes, the sulfur is rich in quality of ingredient having anti-bacterial, anti-fungal and it's a natural antiseptic. These qualities are excellent for treating Acne, Pimples, Blackheads, Whiteheads, Dermatitis, psoriasis and blemishes.

New York, NY, October 29, 2007 --(PR.com)-- For centuries people who suffered from acne and other severe skin disorders have traveled great distances to natural volcanic Sulfur springs so they could submerge their bodies to cure their skin ailments. Natural volcanic Sulfur is antibacterial, antifungal, and it has a keratolytic effect which is excellent in treating and curing acne, acne vulgaris, dermatitis, blackheads, whiteheads, pimples, zits, razor bumps, blemishes, seborrheic dermatitis, dandruff, psoriasis, oily skin, and many more skin ailments.

World renowned dermatologist Dr Joesoef has been formulating natural volcanic sulfur based Acne products under the brand name Joesoef Skin Care for over 30 years. Acne is a common problem for both teens and adults. There are many factors which cause acne including stress, hormonal changes, heredity, pollutants, spices, UV and many more factors.

The Joesoef Skin Care Anti-Acne Facial Treatment Kit harnesses the healing power of Volcanic Sulfur by using a 4-step regimen to treat and cure acne. Step 1 "Cleanse" with Anti-Acne Soap with Sulfur 10% works to treat and combat acne at the root with its antibacterial and antifungal properties by eliminating clogged pores. Step 2 "Remove" with the Anti-Acne Oil Remover that thoroughly cleanses skin by removing bacteria, dirt, oil, sweat, pollution, and makeup traces and deeply penetrates the skin to open the pore for removal and release of the excess oils and trapped sebum. Step 3 "Treat" with the world famous Anti-Acne Drying Lotion with Sulfur 6.6% is used over night to treat acne, reduce inflammation and prevent future breakouts. Step 4 "Target" the problem areas and clear blemishes with the Anti-Acne Cream that goes on clear and works all day effectively killing acne causing bacteria.

Joesoef Skin Care is the only clinical strength Natural Volcanic Sulfur Acne Treatment Kit that can be purchased without a prescription in the US market. Joesoef Skin Care products can be found at Harris Teeter or by calling 888 366 3296. The Acne Kit can be purchased for \$32.99 online.
