Seattle, WA, October 31, 2007 --(PR.com)-- Introducing the world's first and only coffee naturally grown with only 1% caffeine: Daterra Coffee's Opus 1 Exotic

This coffee tasting is the world premiere of Opus 1 Exotic. Following twelve and a half years of intense breeding and cultivation, Daterra Coffee of Brazil announces Opus 1 Exotic, the first 100% Arabica coffee grown to be naturally lower in caffeine. With less than 1% caffeine, Daterra Coffee's Opus 1 Exotic is the first naturally grown low-caffeine coffee available. Daterra Coffee has successfully cultivated and brought to maturity this extraordinary new coffee. It is ready to ship to roasters worldwide.

Opus 1 Exotic has 30% less caffeine than traditional Arabicas making it the perfect coffee for afternoons and evenings - and its taste profile is one of a kind.
