

Personal Concierge Service for Busy Professionals and Multitasking Parents in Charlotte, NC

Personal concierge services help achieve a healthy work/life balance by putting time back into your hands. Start Living.

Charlotte, NC, November 18, 2007 --(PR.com)-- Personal concierge services are the newest solution for busy professionals and multitasking parents struggling to find time to balance work and personal commitments. Similar to a concierge at a fine hotel, a personal concierge helps take care of all the tasks that can add up to hours of lost time every day.

Concierge of Charlotte, LLC (www.ConciergeofCharlotte.com) is Charlotte's premier personal and corporate concierge service. Concierge of Charlotte offers a wide variety of services ranging from taking care of general errands such as grocery shopping and picking up the dry cleaning to business related services. "Many of our clients are overwhelmed with daily and weekly tasks - just like the rest of us - and they find our services to be that helping hand. They find our services to be most beneficial because they can call us when they need us instead of hiring someone part or full time," says Crystal Dudley, co-founder of Concierge of Charlotte.

Why choose the Concierge of Charlotte? It's simple: convenience, reliability, and trust. The Concierge is available at all times and is happy to take last minute requests. They also offer a satisfaction guarantee.

For more information, please visit www.ConciergeofCharlotte.com or call (704) 778-8578. The Concierge of Charlotte charges hourly for services and also offers discounted packages and holiday/seasonal specials.
