

Give the Gift of Flight - Performance Flight Goes Ultra-Luxe for the Holidays

White Plains, NY, December 19, 2007 --(PR.com)-- Performance Flight, located at Westchester County Airport, is offering gift certificates for a spectacular Experience Flight. Perhaps the most memorable and unique gift idea, a Performance Flight gift certificate is the perfect choice.

Performance Flight has been consistently recognized for the outstanding quality of their programs and the unmatched experience of their pilots. Most recently, Performance Flight was featured in November's Robb Report and—this month—as a highlight story on CNBC's High Net Worth.

An Experience Flight is the ultimate opportunity to fly an airplane. A Performance Flight professional pilot/flight instructor will explain the particulars of the plane including all of the safety innovations making air travel the safest method of transportation. Next, feel the adrenalin and pure excitement as you prepare to take off. Once in the air you will be offered the opportunity to take the controls and actually fly the plane. Experience Flights provide spectacular views, such as the mansions of Greenwich and the shore of the Long Island Sound, and cameras are welcome.

Experience Flights last approximately 1 hour in the air and cost \$299. Gift certificates can be purchased by credit card over the phone.

Performance Flight offers a complete array of flight training services including obtaining your private pilot license, instrument and commercial ratings, and multi-engine instruction. All Performance Flight planes are 2007 models and include the Cirrus SR20-GTS, SR22-GTS, SR22-GTS Turbo, and the Diamond Twinstar. All aircraft are available for training and rental. No matter what your level of flight experience, Performance Flight will provide the most comprehensive and advanced training available.
