

Alexander Aviation Announces New Web Site

Alexander Aviation Associates announces the completion of their new web site, www.alexanderaviation.com. Developed specifically with fast and simple navigation as a primary goal, the site focuses on U.S. aviation insurance, including recent industry changes that affect private pilots and aviation professionals

Apopka, FL, January 15, 2008 --(PR.com)-- Alexander Aviation Associates announces the completion of their new web site, www.alexanderaviation.com. Developed specifically with fast and simple navigation as a primary goal, the site focuses on U.S. aviation insurance, including recent industry changes that affect private pilots and aviation professionals. The Alexander Aviation (AAA) site allows easy access to useful information relating to corporate/charter, training, FBO and maintenance businesses, as well as air ambulance, law enforcement and private aircraft operation. The site is unique to aviation insurance because of its depth of information and functionality.

Users can quickly access new information and recent industry articles that affect commercial aviation businesses, and innovative insurance programs for light sport aircraft and VLJs. Quick on-line quotes and downloadable insurance forms add to the usability of the site.

Alexander Aviation Associates specializes in insurance needs for aviation businesses and private aircraft. In operation since 1978, the company's expertise provides assistance in all 50 states. Headquartered near Orlando in Apopka, Florida, AAA's team of professional agents, most of whom are pilots themselves, provide practical, real-world aviation expertise and resourceful insurance solutions. Alexander Aviation also offers a no-cost or obligation analysis and assessment of existing insurance coverage. For more information, call toll free number 1.800.432.8519, email to info@alexanderaviation.com or see www.alexanderaviation.com.
