

A&E's Famed Paranormal Investigator, Ryan Buell of the Hit Show, Paranormal State to Appear on P.O.R.T.A.L. Paranormal Talk Radio

St Louis, MO, January 26, 2008 --(PR.com)-- A&E's famed paranormal investigator, Ryan Buell of the hit show, Paranormal State will appear on P.O.R.T.A.L. Paranormal Talk Radio on Sunday, January 27, 2008 to discuss his most recent cases, religion and demonology.

P.O.R.T.A.L. Paranormal Talk Radio, which is on the Paranormal Radio Network, an online radio network whose programming has exceeded over 107 countries of listeners, with hosts Tuesday Miles and Angela Thomas, welcomes Ryan Buell to the show on Sunday, January 27, 2008 to discuss his most recent cases, religion and demonology.

Ryan Buell is no ordinary man. As the Founder and Director of the Paranormal Research Society of Penn State, Buell's work has reached extraordinary heights in a short amount of time. Among his accomplishments, Buell created the first university-based society of its kind. His knowledge and experience led him to become a leader among the top paranormal professionals in the field, as well as, a sought after speaker throughout the country. In addition to being a top, paranormal investigator, Buell has stepped into an area few dare enter - Demonology.

Demonology is the systemic belief and study of demons, and it is not to be taken lightly, and it is not for the weak hearted. Considering the risks and fears associated with the work, only a small amount of people worldwide are known demonologists. Yet Buell's desire to help others with such cases set in motion a path not many have voluntarily taken. Historically, the Catholic Church has handled request from parishioners; however, the Roman Catholic Church still lacks priests interested or willing to enter into traditional rituals such as exorcism. Buell is filling the gap by training others to handle paranormal investigations and demonic presence. He is a man on a mission. His mission is to educate others of demonic existence, and to assist those with any true paranormal activity; evil or not.

Ryan Buell has taken his work and introduced it to the mass media with a new show on A&E called Paranormal State. This half hour docu drama chronicles real life investigations performed by Buell and the PRS team. Paranormal State can be seen each Monday 10/9c.

The P.O.R.T.A.L. Paranormal Talk Radio Show can be heard on the Paranormal Radio Network each week at 7p-9p, Eastern on Paranormal Radio Network, as well as, AOL Radio, MSN Radio, Satellite Radio UK, Tricom, BBS, Aussie Chat, and Live365 just to name a few. A live, virtual auditorium is available on www.Paltalk.com for those wishing to share their interests, ask questions or interact with both guests and hosts.
