

SEM Worldwide Accepting New San Diego Search Engine Optimization Clients

SEM Worldwide, a search engine optimization firm known for its work in the real estate, lawyer and mortgage industries is broadening its customer base and is now accepting new customers in a broad spectrum of industries.

San Diego, CA, February 06, 2008 --(PR.com)-- SEM Worldwide is broadening its customer base and is now accepting new customers for [San Diego search engine optimization](#) services. SEM Worldwide operates differently than your typical SEO firm. According to Levi Barker, VP of Sales for SEM Worldwide, "There are some serious differences between us and the other major [San Diego SEO](#) firms. We provide services that are superior to our overpriced, over-hyped competition for a fraction of the price. Additionally, we only accept one client per area of expertise in each metropolitan area. Oddly enough this is not common in the search engine optimization marketplace. What this means for you, the client, is that you do not have to worry about SEM Worldwide performing the same services for both you and for your competition. There is never a conflict of interest when it comes to our services. It makes no sense to partner with an SEO firm who is working on your competition's website."
