Los Angeles, CA, February 28, 2008 --(PR.com)-- First, Baron Brady offers a modern twist on the Faust legend with the publication of Palpable Obscure in conjunction with Lulu (www.lulu.com), the world's fastest-growing provider of print-on-demand books.

In this dark and metaphysical tale of uncurbed ambition, an embittered creative writing teacher by the name of Olwen Sheridan meets a charismatic young student who appears to have everything: looks, money and the confidence that comes with having both. His own life series of disappointments, Olwen believes himself accursed; but the young man, who calls himself Silvanus, assures him he isn't, intimating that Olwen could have everything he ever wanted, including a dazzling writing career.

Palpable Obscure is a tour of a man's life, in all its passion and shame, and a story of how meaning seems to elude us the more we come to expect it. But if, as Olwen discovers, perspective is everything, is there much point in looking for truth?

Also, Baron Brady offers an unsettling look at life in Skid Row with the publication of Malachi, also in conjunction with Lulu.

In L.A.'s Skid Row district, Malachi has become the stuff of legend, his influence, for good or ill, felt by not only the men and women who sleep on the streets but by the lawyers, police officers and shopkeepers who spend their days there. No one knows who Malachi is, though some people think he may be responsible for the murder of an unidentified man.

But who is Malachi and what is it about him that could have left such an indelible impression on eight people who attempt to answer these questions; and, in so doing, tell the story of a city, a city imploding under the weight of its neuroses, the neuroses of people with too many questions and not enough answers. It's a nightmare world where all enemies are invisible and all friends suspect; a world where death lurks around the corner and comes only when it's least expected. But is it death that Malachi has in store for these people? Or do their fates depend on each other?
